Giving Hope Kumasi Children's Home

The Need:

- ◆ Ghana is home to over 1.1 million orphaned children.
- ◆ Orphaned children are either placed in a government facilities or **living on the streets**.
- ◆ Government facilities are institution based, and do not provide a family environment. Caregiver to child ratios are extremely high.
- ◆ Most children are not eligible for adoption, due to very specific government requirements.
- ◆ Currently, Ghana has suspended all international and domestic adoptions.

The Solution:

- ◆ Build a multi-family dwelling (apartment complex), capable of housing 5-10 children per home, along with 1-2 care givers, per home.
- ◆ Build a self sustaining complex with a well, garden, fish pond, and store front.
- ◆ Provide each child with an education, through sponsorship and partnership with a local private school.
- ◆ Our goal: create a stable, nurturing, family environment and education for the long term care of children.

Building Sight of Giving Hope Children's Home.

Estimated Cost: \$30,000

- \$ Building Orphanage
- \$ Drill Well
- \$ Install Fish pond and garden.
